

LETTER OF REFERENCE

Brussels, 15th of June 2020

Dear Sir
Dear Madam

As the Front End teacher of Salai Tun Lin Aung, I can confirm during the 4 months he was my student he was a model student in my class of eight students. He is respectful and always looks to understand coding in depth. He has attention to detail and always made his apps from scratch without copy-pasting code.

The studies were one quite demanding and nevertheless he was known for helping his co-students. He has a high capacity to learn and apply what has been taught. I do regret not having more time so I can see him evolve further towards a full stack developer.

As his instructor, I have no doubt Salai was also repeating at his home working up his way towards establishing a career in the IT sector. I can therefore sincerely recommend him as your future co-worker. Please do not hesitate to contact me if you have any further questions.

Sincerely yours

Benedikt Lantsoght
